Subject: RE: PRE - APPLICATION MEETING FOR THE DEVELOPMENT OF A NEW LANDFILL SITE AND ASSOCIATED INFRASTRUCTURE

Importance: High

Good day Ms Dlamini,

Apologies for the late reply,

Based on our reading of the ECBSP, municipal landfill sites are not addressed in the Handbook. However, we believe this can be considered under the "Other Services" land use type. This land use type is meant for Government: use of land by national, provincial or municipal government to give effect to its governance role: water, sewerage pipelines, Eskom power lines. This includes municipal zoning schemes appropriate for power generation by Independent Power Producers. The proposed development is considered a small landfill site and as such could be compatible (i.e. Yes (Y)) as per Table 12: Matrix of recommended land use management guidelines for terrestrial-based activities in the ECBSP Handbook.

With the above, we believe that the proposed development is compatible with the ESA2.

We trust you will find the above in order.

Kind Regards,

Kabedi Mashilo (Pr Nat Sci & Reg EAP)

Subject: RE: RE: PRE - APPLICATION MEETING FOR THE DEVELOPMENT OF A NEW LANDFILL SITE AND ASSOCIATED INFRASTRUCTURE

Good day Mr. Mashilo,

The Department acknowledges receipt of the terrestrial and freshwater maps submitted for the above-mentioned project. It is noted that the proposed landfill site, as indicated on the terrestrial biodiversity map falls within Ecological Support Area 2 (ESA 2). Please confirm whether the proposed project is compatible with the development of a landfill site within an Ecological Support Area 2 (ESA2) as per ECBSP.

Regards,
Phindile Dlamini
